Subject: Presentations

Hi Rick,

Sorry I missed your call. We will be providing you with a DVD of the agency presentations along with the audio for each presentation. Unfortunately, we can't do this prior to the meeting as we have not received all of the presentations yet and are not likely to until just before the meeting. Someone's always late. They won't have the audio portion until the presentation is actually given anyway which generally contains the meat of the information presented.

Good to hear your fisheries scientists have found the information and methodologies in the EBD chapter and appendices on fish to be quality work.

Ken
